Sarita Dhuper, MD.
FACC

What is Insulin resistance and how does it contribute to obesity?

Insulin is a hormone made in the pancreas by a group of cells called Beta cells. When we

Fall 2014

LIVE LIGHT LIVE RIGHT

At Brookdale Hospital

Dear Friends,

Welcome to the winter. It's snowy and cold outside, but there are many activities that you can do indoors to stay active. There are many affordable gyms like [Crunch Fitness](#) and [Planet Fitness](#) that make it easy to keep your fitness routine, several [at home exercises](#), and playing outside in the snow is fun and a great workout.

The Live Light Live Right program is moving forward and constantly adding new and exciting activities. In February, we kick off our new boxing program with [Knockout Obesity](#) that will take place at our CAMBA Beacon 166 location. We are very excited to start this year long program. Our [Kids Ride Club](#) began in September with our partners [Bike NY](#) and we will be gearing up to start again this spring. This has been a great experience for our children and they are looking forward to starting up again.

As with any new programs, there will be new expenses and all donations are always appreciated. To make a donation, to support a child for the Kids Ride Club or any of our other programs you can do so through our [website](#). Thank you in advance for your support.

If you are interested in supporting our program or partnering with us. Please contact us at (718) 240-8125.

Yours truly,

eat carbohydrates-sugars and starches found in many foods...

Live Light Live Right's Feature Food: Juicing

An Immune Booster That Tastes Great and May Even Curb your Appetite!

By Judy E. Marshel, PhD, RD, CDN

Juicing is a powerful way to get incredible doses of healthy vitamins and nutrients into your body. It can have dramatic positive effects. Fresh vegetable juice helps to give you more energy, lower your chances of contracting chronic disease and may even accelerate weight loss.

Participant of The Month: Rushell Walker

A Story of Transformation

Rushell's journey with Live Light Live Right began in 2011. She was not happy with herself and wanted to live a healthier lifestyle. She was on a roller coaster ride with her weight and was very frustrated. In 2014, Rushell made the decision to get bariatric surgery. She witnessed the success of her mother's surgery and wanted the same for herself.

Summer Camp 2015

It's already time to plan for the summer. We are looking for participants that are already enrolled in our Live Light Live Right program, previous participants that would like to come back or someone new that would like to join our program.

We are partnering with Fresh Air Fund and CAMBA for our Summer Programs, in addition, we will be doing a LLLR Fitness Challenge and the Kids Ride Club.

If you are interested in any of these programs contact us at 718-240-8125.

Nutrition Corner

Is Coconut Oil Healthy? By Judy E. Marshel, PhD, RD, CDN

Coconut oil, previously shunned by the health and wellness community for its high saturated fat content, is now a staple cooking oil in many households. It can be found not only in specialty health food stores, but at most local grocers as well.
